# **SAFARI TRAVEL PLANNER**

# INTRODUCTION

Greetings from Africa,

Thank you for requesting this Safari Travel Planner. This planner is intended to help you to make your planning easier. It can be at times overwhelming to go through all the mass information available online.

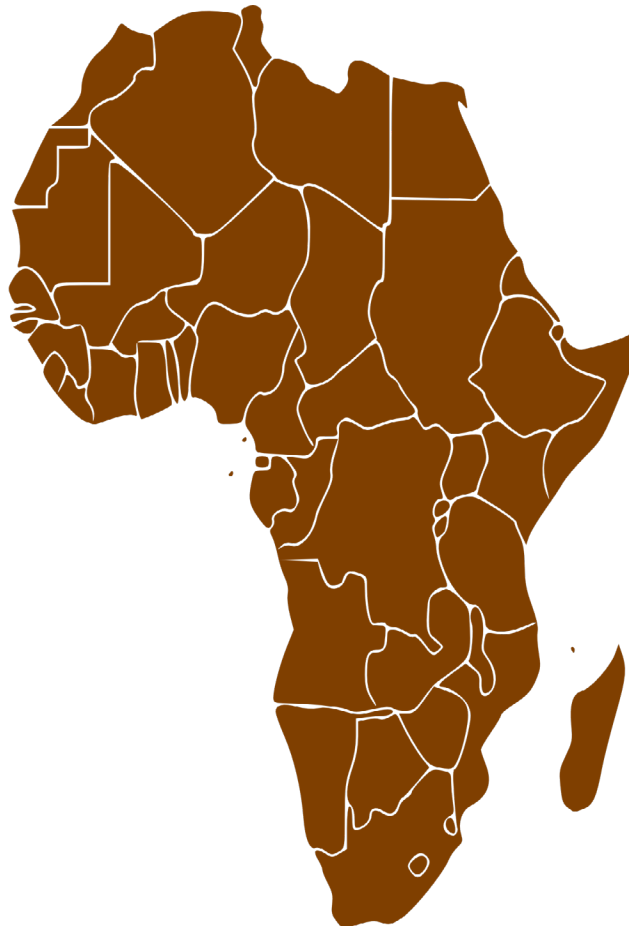

I hope you will find this travel planner useful during your planning.

Happy planning and a wonderful safari.

Regards,  
Wangui  
Tour Consultant  
Nairobi, Kenya

## 6 TRAVEL TIPS AS YOU PLAN TO GO ON SAFARI

- **Which country to visit for your first time going on safari?**

Start with East Africa. It's the best choice for first timers who are looking for a real safari experience. In the Serengeti(Tanzania) and Masai Mara national parks (Kenya), you can see all the animals.

- **Accommodation**

Do your research accommodation carefully taking into consideration your budget and expectations. Accommodation options in parks can range from mobile tented camping, large safari lodge (similar to hotels), eco camps to luxury boutique camps and lodges.

- **Avoid having a rushed safari**

As you plan your safari make sure you plan for enough time in each park. This will ensure you are able to go on several game drives and explore the area.

- **Carry a camera to capture every moment**

Make sure you carry a camera to capture all the memorable moments during the safari. Carry with you extra memory cards and chargers just in case. You can charge the cameras every evening at the lodge/camp.

- **Carry warm clothes**

Early mornings and evenings can be at times be very cold. Remember to carry warm fleece jacket/ sweater.

- **Type of luggage to carry**

Avoid carrying hard case suitcases and travel light. We encourage carrying soft luggage in order to fit in the small baggage compartment in the 4x4s , mini vans or the aircraft. Those who choose to fly between places the baggage allowance is usually 15KGS inclusive of hand luggage in soft bags.
